PROFILE

Highly skilled Frontend Developer, having **3 years** of strong professional work experience in designing and developing single-page applications primarily using **Javascript, Angular, Typescript, React, Next.js, HTML, CSS, Bootstrap, Tailwind CSS, Angular Material, RXJs, NgRx, Redux** etc.

Key Highlights

- Successfully delivered **complex front-end modules** within tight deadlines, demonstrating the ability to thrive under pressure.
- Managed **multiple modules concurrently**, meeting requirements and **adhering to UI/UX specifications** for exceptional user experiences.
- Proven **team player** with a can-do attitude, exceptional **time management** skills, and a **strong focus on user satisfaction**.
- Thrived in a fast-paced environment, **consistently delivering high-quality code** while collaborating effectively with cross-functional teams.

PROFESSIONAL SKILLS

Javascript | Typescript | Angular | React | Next.js | Angular Material | NgRx | Redux

RxJs | Ant Design | Git | HTML5 | CSS3/SCSS | Bootstrap | Tailwind CSS | Node.js

PlotlyJs | ChartsJs | API integration | Debugging | OOP | Backbone.js

PROFESSIONAL EXPERIENCE

Gainsight, Software Engineer - UI | May 2022 - Feb 2024 

- In my role with Gainsight, I was a key member of the Journey Orchestrator team, I played a pivotal role in the design and implementation of the **Dynamic Programs** module and fixed bugs in existing **Simple Program** and **Advanced Outreach** modules. This DP module introduced a **free-flow drag-and-drop** interface, allowing for the seamless creation of automated email campaigns, coupled with robust **analytics tracking**. This tool is used to **send automated emails** to more than **10 million participants**.
- I have played a significant role in building **sophisticated front-end modules**, ensuring their successful delivery following **best coding practices**.

- Following the **micro frontend architecture** paradigm in our project, I gained an **in-depth** proficiency in **JavaScript**, with specific expertise in **Angular, React, Next.js, Redux, RxJS, NgRx, HTML, CSS, and TypeScript**. This knowledge has played a key role in skillfully building powerful and efficient applications.
- Effectively **collaborated** with **cross-functional** teams, integrating their **web components** into our Dynamic Program.
- Performed **optimized API integrations** with backend services.
- I have consistently **delivered multiple features** by taking **complete ownership** throughout the development process and worked on complex **UI/UX designs**.
- I implemented an **Archival Feature** in the Advanced Outreach Analytics module to **enhance scalability** to support **10 million participants**.
- I actively contributed to the **CSS redesign** of Dynamic Programs, showcasing design expertise, and played a pivotal role in **facilitating i18n translation** efforts.
- Onboarded multiple **junior team members**, provided functional and technical **knowledge transfer** sessions, offered **guidance**, **assisted** them in **debugging**, and conducted **code reviews**.

UptimeAI, Software Engineer | Oct 2021 - May 2022

- Understood the user requirements, Implemented the UI as per UX design, **consumed REST APIs**, and made **code optimization** to existing code.
- **Improved the performance** of the app by reducing redundant API calls.
- Worked on the **Interactive Plotly.js Charts** which are used to show complex data.
- **Created some complex components** using Angular Material like Nested Mat Tables, Mat Trees, etc.

Micro Focus, Associate Development Engineer | Feb 2021 - Sep 2021

I worked in Micro Focus as a Frontend/Angular developer. My day-to-day work involved understanding the **user requirement** and **developing the UI components** using Angular 12 and **maintenance** of the app.

EDUCATION

Integral University | Lucknow | 2020, M.Tech (Computer Science)

CGPA: 9.5 (Sliver Medalist)

AKTU | Lucknow | 2016, B.Tech (Computer Science)

Percentage: 73%

LANGUAGES

English | Hindi

OTHER SKILLS
